

InflaRx is a NASDAQ listed biotechnology company with Clinical Research hubs in Jena and Planegg, Germany. We research and develop new medicines for the treatment of inflammatory diseases within a global development approach. We stand out for an excellent team of highly motivated and skilled individuals who put strong emphasis on a team effort.

To support our expanding CRD team we are looking for a

Medical Expert (m/f)

The Medical Expert will provide medical and scientific expertise throughout the development and implementation of clinical development programs in the field of autoimmune and inflammatory diseases. The position is located in Jena or Planegg and reports to the CMO.

Primary Responsibilities:

- Collaborates within a multidisciplinary team in the execution of clinical trials
- Ensures medical plausibility and integrity of clinical trial data
- Contribute to the design of clinical trials aligned with the overall clinical development strategy
- Writes clinical study protocols, protocol amendments, study reports
- Actively contributes to publications related to clinical data
- Helps to create knowledge from the data by performing initial or exploratory statistical analyses and interpretation of the data
- Establish external study committees (e.g., IDMC, Study Steering Committee)
- Present scientific data by communicating accurate, succinct summaries of clinical results internally and externally
- Interfaces with management on significant matters, often requiring the coordination of activity across organizational units, physicians, and external CROs and medical writers.
- Comply with current local and international regulations, laws, scientific and regulatory guidance, Good Clinical Practice, and internal policies and procedures

Education/Experience/Skills:

- Medical Doctor or advanced scientific degree (MS/MSc/PhD)
- Minimum of 5 years experience in the biotech, pharma or CRO industry
- Profound knowledge in the clinical drug development process
- Scientific knowledge within immunology, complement research, rheumatology or dermatology
- Strong verbal and written communications skill
- Ability to engage in an open, constructive and continuous dialogue
- Fluent in written and verbal business English
- Highly motivated, self-driven and dependable
- Ability to travel (domestic and international travel is required)
