

InflaRx is a NASDAQ listed biotechnology company with offices in Jena and Munich, Germany. We research and develop new medicines for the treatment of inflammatory diseases within a global development approach. We stand out for an excellent team of highly motivated and skilled individuals who put strong emphasis on a team effort.

To support our expanding CRD Team we are looking for a

Clinical Scientist (m/f/d) *

(Reference number: 2020119)

The Clinical Scientist will provide medical and scientific expertise throughout the development and implementation of clinical development programs in the field of autoimmune and inflammatory diseases.

The position is located in Jena or Munich.

Primary responsibilities:

- Collaborates within a multidisciplinary team in the execution of clinical trials
- Ensures medical plausibility and integrity of clinical trial data
- Contribute to the design of clinical trials aligned with the overall clinical development strategy
- Writes clinical study protocols, protocol amendments, study reports
- Actively contributes to publications related to clinical data
- Helps to create knowledge from the data by performing initial or exploratory statistical analyses and interpretation of the data
- Establish external study committees (e.g., IDMC, Study Steering Committee)
- Present scientific data by communicating accurate, succinct summaries of clinical results internally and externally
- Interfaces with management on significant matters, often requiring the coordination of activity across organizational units, physicians, and external CROs and medical writers.
- Comply with current local and international regulations, laws, scientific and regulatory guidance, Good Clinical Practice, and internal policies and procedures

Education/Experience/Skills:

- Medical Doctor or advanced scientific degree (MS/MSc/PhD)
- Minimum of 5 years of experience in the biotech, pharma or CRO industry
- Profound knowledge in the clinical drug development process
- Scientific knowledge within immunology, complement research, rheumatology or dermatology
- Strong verbal and written communications skills
- Ability to engage in an open, constructive and continuous dialogue
- Fluent in written and verbal business English
- Highly motivated, self-driven and dependable
- Ability to travel (domestic and international travel is required)

We offer:

- An open-ended employment contract with 30 days leave per year
- Attractive remuneration and above-average employer participation in the company pension scheme
- You design your workplace by bringing in your own ideas and visions
- You work in an ambitious company with a highly motivated team

We offer you a challenging and varied opportunity with an innovative, dynamic and expanding company. InflaRx strives to be a company that is recognized by its employees as best place to work for in the industry. We want to accomplish this by working with passion and professionalism on thru medical innovation. We pride ourselves in maintaining a friendly, honest and trusting relationship with each other.
